

**Round up or Down?**

1. Choose one of the following numbers and write it above the first mark on the number line:

100, 200, 300, 400, 500, 600, 700, 800, 900

2. Count on by 10s from your starting number to complete the missing numbers on the number line.
3. Write 12 different numbers in the boxes on this page that fall between the smallest and largest numbers on your number line.
4. Cut out the boxes.
5. Round each number to the nearest hundred and place them on the appropriate side of the number line.
6. Have a friend check your work.
